

Great Ohio Bicycle Adventure

**Welcome to the Great Ohio Bicycle Adventure (GOBA) 2022!**  
**You're receiving this e-mail because you're registered for the 2022 ride.**

### **This is Update #4**

We'll probably send one last update e-mail on Thursday with a few last minute reminders about Saturday's check-in procedure. **This update is what you've all been waiting for - THE FINAL ROUTES!!**

**Reminder - All the previous e-mail newsletter updates and host city activity can be found on our ["News & Resources" webpage](#). **Bookmark this page**; this is where we'll post updates and additional information during GOBA week.**

**GOBA routes can be found in two (and a half) places and formats:**

1) The GOBA.com website - sub-page named ["Route Info" - click here](#)

You'll find links to **download & print each route map**. They're in .pdf format and include a map & cue sheet on one, front/back, 8x11 printable page. **Please consider printing your own** in advance of GOBA; we're trying to reduce waste and will have a limited supply. There's also a link on our webpage to.....

2) **Ride with GPS GOBA Event Page - click here**

This houses all the routes in digital download formats. And, all the routes are compiled in one "Event" block, so they're all in one place. Click on each route to "view route" and you'll find your digital downloads to put on your GPS device, or save them to your own Ride w GPS account so you can view them via your smartphone, etc. There's also the choice to "print a pdf map & cue sheet"...and, that's where the printable maps on our website came from.

1/2) Two and a half places, you say??? Yes; this is where we mention that all the routes have been **marked (painted) on the roads!** Routemeister Dwaine is a Hall of Fame route painter; his markings on the road are so good you may not need a map or digital file! Also, be aware that if we have unexpected road conditions that require a detour, the road markings will help guide the way.

## **SNACK STOP & LUNCH "FOOD GRID"**

[Click here for the traditional "Food Stop Grid"](#) that lists details of lunch and snack stops on each day's routes. This will be in your rider packet; put it in a plastic baggie and carry it with you all week! It's almost as vital as your helmet.

We look forward to hosting you on GOBA next week! Let's ride!

Jeff Stephens,

GOBA Director
